## What is Postcrossing

It's a project that allows you to send postcards to random people around the world. That's real postcrossing. [Learn more.](#)

### How does it work?

1. Request an address and a Postcard ID
2. Mail a postcard to that address
3. Receive a postcard from another postcrosser!
4. Register the Postcard ID you have received
5. Go to number 1 to receive more postcards!

[Create an account — it's free!](#)

## Our happy members

*"When I receive a postcard my heart soars like an eagle! Of the billions of people on earth, it takes my breath away that a single person, thousands of miles away, took the time to write to ME. Though we may never meet, their words will forever be etched in my heart. I am thankful for being able to be a part of sharing. I await the next one. White Wolf, Earth"*

# A postcard from Australia.

## Australia

The kangaroo is one of the most distinctive Australian animals. Roaming the wide open spaces with their signature hopping gait, they are a symbol of Australia.

謝謝老師們!

The background features a collection of watercolor-style circles in shades of teal, yellow, and orange, scattered across the white space. Interspersed among these circles are small, stylized starburst shapes in yellow and orange. The overall aesthetic is bright and cheerful.
